

Please keep K-LOVE broadcasting on 94.3 FM in the Chicago, IL area ON THE AIR. I request that this local station not be replaced by a LPFM station. K-LOVE provides family safe programming for my family. I have two young daughters and there are very few stations appropriate for them to listen to. I enjoy the morning shows with uplifting comments by the DJs. There are already too many stations that do not support our community or that provide programming that is inappropriate for families.
